Bengaluru

PROFILE

Innovative Software Developer with project-based experience in developing, debugging, and deploying responsive web applications. Skilled in building and deploying client-side and server-side applications. Proficient in core programming concepts and modern development tools, with a focus on delivering reliable and efficient solutions in collaborative environments.

TECHNICAL SKILLS

- Python
- CSS / CSS 3
- Express.js
- Java
- JavaScript (ES6+)
- MongoDB
- C++
- React.js
- MySQL
- C
- Node.js
- RESTful APIs
- HTML /HTML5
- Next.js

EDUCATION

Bachelor of Engineering in Computer Science (CGPA – 7.74)

Channabasaveshwara Institute of Technology

2020 - 2024

Tumakuru

Senior Secondary in PCMB (Percentage - 79)

Seshadripuram Pre University College

2018 - 2020

Bengaluru

SSLC (Percentage – 93.92)

Vidyaniketan High School

2017 - 2018

Tumakuru

PROJECTS

Pictogram [HTML, CSS, JavaScript, BootStrap, PHP, MySQL]

- Designed and implemented a comprehensive full-stack social web application to enhance user connectivity and interaction. Integrated MySQL as the backend database and employed HTML, CSS, Bootstrap for a visually engaging frontend interface. Utilized JavaScript and jQuery to enable dynamic, interactive components that improved responsiveness and user engagement. Incorporated key features including user registration and authentication, follow/unfollow mechanisms, user blocking, real-time chat, notifications, content sharing, advanced search functionality, and an admin panel for streamlined management. Enhanced performance and user experience through the use of AJAX for asynchronous data handling, enabling seamless page updates without full reloads.

Youlfy [React.js, Next.js, Express.js, Node.js, MongoDB] [Link](#) :

- Built a full-stack web application using the MERN stack to facilitate seamless playlist transfers between Spotify and YouTube in both directions. Developed an intuitive frontend with React, backed by Express.js and Node.js for server-side operations, and leveraged MongoDB to log transfer history and manage session data. Integrated official APIs from Spotify and YouTube while maintaining full compliance with Google API Services User Data Policies. Emphasized secure authentication flows, smooth user interactions, and efficient handling of multimedia metadata.

WORK EXPERIENCE

KodNest Technologies

Full stack Trainee

Jul 2024 - Mar 2025

Bengaluru

- Trained in Web Development covering Java, Spring Boot, RESTful APIs, and microservices for robust backend solutions.
- Developed an e-commerce app using HTML, CSS, JavaScript for the frontend and Java Spring Boot for the backend, with MySQL for data storage.
- Implemented key features like user authentication, product catalog, shopping cart, and real-time order processing. Designed RESTful APIs and optimized performance using caching and database indexing for Scalability.

Eunoia Labs

ML Intern

Aug 2023 - Jan 2024

Tumakuru

- Developed a CNN using TensorFlow to recognize handwritten digits from Sudoku puzzle images, achieving 98% validation accuracy with minimal loss (0.05).
- Utilized OpenCV for image preprocessing and segmentation to enhance digit clarity and improve recognition performance.
- Implemented a recursive backtracking algorithm to compute solutions for incomplete puzzles after digit extraction.
- Designed a Tkinter-based GUI allowing users to upload Sudoku images and receive real-time, visualized solutions.
- Gained practical experience in model evaluation, algorithmic problem-solving, and full-cycle ML project implementation.

ACHIVEMENTS

- Developer of job portal called [FreshJobHub](#).
- Developed a freelance [personal portfolio](#) Project website.
